

2021 City of Weyauwega

STATE OF THE CITY – CITY ADMINISTRATOR, JEREMY SCHROEDER

The halfway mark of 2021 is rapidly approaching and certainly is headed in a more positive direction returning to how things were pre-pandemic. The City of Weyauwega, businesses and residents like other areas were severely impacted by the pandemic but were able to adapt to the on-going changes, while difficult but are now seeing the slow return to some normalcy. One of the great benefits of a small community is the support each other has for their neighbor, local businesses and community as a whole.

Taking a quick look around the city it doesn't take long to see the large amount of construction equipment and projects taking place. The City of Weyauwega had to put up a new Water Tower which is located up behind the Community Park. During the 2018 Water System Study the DNR noted that the water tower on corner of Mill and Clark Streets (the city's oldest tower) would need to be replaced. The process began and a 1 million dollar CDBG grant was awarded to the city for the new water tower, booster station and water main project. This project has been a very large undertaking for the city and will produce great benefits in the end that include better water pressures in that area, more water capacity and better water source for fire protection.

The city also has the new Canoe/Kayak launch project under way on Old Mill Street. This project has been discussed and was part of the 2017 Comprehensive Outdoor Recreation Plan. To date the city has been awarded \$45,000 in grants and has received just over \$40,000 in private donations toward the project. The updated goal is to hopefully have the launch, trail and parking lot complete or near completed by the July 4th holiday weekend. As with other things COVID has delayed so much including the launch platform.

Many other projects are planned for the summer which include skim coating six blocks of streets in the city to prolong the total life of the streets on those blocks. The Forestry Management Plan development is well underway for the city to guide city staff in maintaining, harvesting and planting of trees throughout the city on city owned/responsible properties. The Public Works staff continue to beautify the parks through minor in-house projects to enhance the quality of life for residents and guests. The Wastewater Treatment Plant will be upgrading the Sludge Processing after a yearlong pilot project. This project will enhance and make the sludge processing more efficient. A couple commercial properties on Main Street have been purchased and will be going through some remodeling and eventually house new businesses and offer apartments for rent. The city is fortunate to have received a \$93,000 CDI grant to support the owners at 102 E. Main in their rehabilitation of that property. The city will be applying again for CDI grants to support a couple other business owners in the same way. Local groups and organizations are planning a wide array of enjoyable events for all to enjoy through the summer from Farmers Markets, music, food and overall fun for entire families.

The City of Weyauwega has a lot of positive projects and events happening with more to come. So many are involved and others are encouraged to get involved with various groups, committees and organizations in the city to continue enhancing the quality of life and beautifying the city. Together as a team with well-established goals and a positive mindset the options are unlimited for what can happen in the city. I encourage you to take some time and travel throughout the city to enjoy the beauty and all of the great things that are taking place. Please support all of the local businesses and organizations that work tirelessly to provide opportunities in conjunction with city officials that make the community great.

CITY FIREWORKS ON JULY 3RD

**Fireworks will be held on Saturday, July 3rd
over the Weyauwega Lake.**

**Please stay tuned for updates
or changes on this event.**

DOG & CAT LICENSING

2021 Dog and Cat Licenses are available at City Hall, 109 E. Main Street. Animal licenses expire each year on December 31st and must be renewed by April 1st to avoid a late fee.

- Spayed Female and Neutered Male \$3.00
- Unspayed Female and Unneutered Male \$8.00

Deadline: A late fee of \$5.00 will be charged if the owner of a dog 5 (five) months of age or over fails to obtain a license prior to April 1st of each year or within 30 days of acquiring ownership of a licensable animal.

Proof of rabies vaccine is required before a license will be issued.

*Dog & Cat License Ordinance
(Municipal Code Sec.190)*

GRASS CLIPPINGS

All grass clippings from lawn mowing or other sources shall not be allowed to blow upon or accumulate in any public street in the City of Weyauwega where such grass clippings could wash into any storm sewer drainage inlet and cause back-up issues.

Please do not mow grass into the roadway in front of your residence, per City of Weyauwega Code of Ordinances 419-23. This will be monitored and enforced by the City Administrator and/or Weyauwega Police Department.

Stay informed by following the
City of Weyauwega website at

www.cityofweyauwega-wi.gov

Or on Facebook at City of Weyauwega.
We welcome any suggestions or comments.

MEDICATION DROP-BOX LOCATION

Weyauwega City Hall • 109 E. Main Street • Lobby Hours from 8 am to 4:30 pm (Mon-Fri)

If you have any questions, contact the Waupaca County Solid Waste Department at 715-258-6240.

KEEP YOUR GRASS CUT

The Common Council finds that lawns, grasses, and noxious weeds on non-agricultural lots or parcels of land, as classified under the City Zoning Code, within the City of Weyauwega **which exceed eight (8) inches in length** adversely affect the public health and safety of the public in that they tend to emit pollen and other discomforting bits of plants, constitute a fire hazard, and a safety hazard in that debris can be hidden in the grass, interferes with the public convenience, and adversely affects property values of other land within the City.

For that reason, any non-agricultural lawn, grass, or weed on a lot or other parcel of land **which exceeds eight (8) inches in length** is hereby declared to be a public nuisance.

The City of Weyauwega may issue written notice to require the cutting of grasses/weeds exceeding eight (8) inches in length. In the event that the issue is not resolved within the timeline identified in writing, the City reserves the right to authorize/contract for the grasses or weeds to be cut, with applicable costs and expenses to be billed to the property owner.

*Regulation of Length of Lawn and Grasses
(Municipal Code Sec. 283-6)*

NUISANCE/JUNK ORDINANCE

Weyauwega residents with the spring time upon us, the Weyauwega Police Department reminds you to do an inspection of your yard, property or properties. The City Administrator in conjunction with the Weyauwega Police Department encourages City Residents to comply with the ordinances that help to keep our great community looking orderly and respectful. The City of Weyauwega discourages against the collection of junk and unsightly materials within the community. Weyauwega City Ordinance 283-8 prohibits unhealthy, hazardous or unsightly materials on public or private property. City Ordinance 454-26 prohibits inoperable, wrecked or discarded vehicles. City Ordinance 378-1 explains parameters of outside storage on private property. All of these ordinances are accessible online at <http://ecode360.com/WE2856> or available at City Hall for your review of the definition. Should you have any question with regards to the interpretation of the ordinance or if your property complies, appointments can be made and an officer will assist you with your

inspection(s). The City Administrator along with the Weyauwega Police Department continually evaluate properties for compliance throughout the year. Identified compliance violations will be contacted and handled on a case by case basis. Fines for non-compliance can range from \$100.00 – \$500.00.

Large items can be taken to the Waupaca County Processing & Transfer Facility, E4981 Swan Road in Manawa, 715-258-6249 for a small fee.

The City Administrator and Weyauwega Police Department encourages your partnership in helping keep Weyauwega a clean, safe place to live!

Reminders to Property Owners with Pets – Please Respect your Neighbors

Chapter 190-6 of the Code of Ordinances for the City of Weyauwega states:

1. No person having in his/her possession or ownership any dog or other domestic animal shall allow the animal to run at large within the City. The owner of animal, whether licensed or unlicensed, shall keep his/her animal tied or enclosed in a proper enclosure so as not to allow said animal to interfere with the passing public or neighbors. Any animal running at large unlicensed and required by state law or City ordinance to be licensed shall be seized and impounded by a humane or law enforcement officer or animal warden.

Chapter 190-10 of the Code of Ordinances for the City of Weyauwega states:

1. **Removal of Fecal Matter.** The owner or person in charge of any dog, cat, horse, or other animal

shall not permit solid fecal matter of such animal to deposit on any street, sidewalk, alley or other public or private property, unless such matter is immediately removed therefrom by said owner or person in charge. This Section shall not apply to a person who is visually or physically handicapped.

2. **Accumulation of Fecal Matter Prohibited on Private Yards.** The owner or person in charge of the dog or cat must also prevent accumulation of animal waste on his/her own property by regularly patrolling and properly disposing of the fecal matter.

The nice weather brings out citizens as well as their pets. Please respect everyone in the community by making sure you clean up after your pets. Keep the outdoors enjoyable for everyone!

2021 Summer Library Program TAILS & TALES

@ WEYAUWEGA PUBLIC LIBRARY • 301 S. Mill Street, Weyauwega
920-867-3742

The 2021 Summer Library Program starts on Monday, June 7th! Track your reading online! Anyone up to age 18 may sign up. Using device or computer, join us online at: <http://wegalibrary.beanstack.org>.

Download the app through Google Play or App Store to log reading on your device.

***In-Person or Virtual Performances (watch for dates & details):**

DAVID STOKES (live reptiles & amphibians)

Animals of our imagination & Dreams with Turtle Island, the Frog Prince, Kartusch the Blind Snake. Stories, songs, puppets, artifacts, riddles, sign-language and more! Live animals, up close! All ages.

RANDY PETERSON (musician)

Imagine your story! Musical versions of some well-known fairytales. Singing and dancing, a fun, entertaining show with lots of music, as you have come to expect from Randy.

LYNN MARCKS (storyteller/musician)

This program will include stories, songs, rhythm & rhyme. Lynn's focus is always the building of positive character traits & values and building a better community. For all ages.

Watch Facebook & website for other programs that will be decided as the summer goes on depending on pandemic numbers.

Join us online to record your child's reading & do book reviews, if you wish. No more activity sheets if you log your reading online! Sign up your family at one time. If you signed up last year, you can just log in and join the new challenge. Log & track each child's reading online using your device or computer. Earn prizes at the half way point and at the finish.

If you choose not to participate online, there are two sheets to fill up with your reading time. Turn in the completed sheets to earn prizes.

Call or email for more information

Call: 920-867-3742 • Email: wey@wegalibrary.org

LIBRARY HOURS

9:30-6 pm (MON-THU)

9:30-5 pm (FRI)

9:30-12:00 pm (SAT)

THE WEYAUWEGA SWIM LAKE

The Weyauwega Swim Lake located in the Weyauwega Community Park will open for the 2021 season on Wednesday, June 9, 2021. Open swim hours are Monday thru Friday 12:30 pm - 6:00 pm and Saturday/Sunday from 11:00 am – 7:00 pm.

Swimming lessons are offered in the mornings Monday thru Friday for a half hour starting at either 11:00 am or 11:30 am. Evening swim lessons are held twice a week, either Monday/Wednesday or Tuesday/Thursday from 6:15 pm – 7:00 pm.

NEW FOR 2021 – The first session of morning swimming lessons will be offered thru the Weyauwega-Fremont School District Summer School Program.

Please contact the School District to sign up for morning lessons only from June 14-July 2. Times will vary.

Registration for all other lesson times and sessions will be done at the swim lake office before the start of each session.

Session I Lessons

Monday-Friday, June 14 to July 2

Session II Lessons

Monday-Friday, July 5 to July 23

Session III Lessons

Monday-Friday, July 26 to August 13

- Level One- Introduction to Water Skills
- Level Two – Fundamental Aquatic Skills
- Level Three – Stroke Development
- Level Four – Stroke Improvement
- Level Five – Stroke Refinement
- Level Six – Advanced

The cost for lessons is \$15 per person for city resident and \$25 for non-city residents who have purchased a season pass, or \$25 for city residents and \$40 for non-city residents without a season pass.

Please Note: Each level has a maximum of 8 students per lesson time so please try to have a second choice in mind when registering in case the time you want is full. Additional classes may be opened if the need arises.

PRIVATE LESSONS - \$15.00 PER HOUR SCHEDULE WITH INSTRUCTOR FOR ANY TIME

Season Passes and Day Passes

Season passes will be available at the swim lake during open swim hours. The fees are as follows:

Family plus one*.....\$55 city resident, \$65 non-city resident

Ice Cream being sold on Main St.
- Helping Hands coloring table
- 50/50 raffle

PasTimes

A Newsletter from the Weyauwega Area Historical Society

A Message from the President

HOORAY! After a long hibernation season, spring has finally sprung! Not only that, but with many people having received an immunization for Covid 19, life seems to be returning to a condition somewhat “normal”. Weyauwega Area Historical Society was obliged to spend 2020 planning for future presentations and events. We hope you enjoy our “PasTimes” Newsletter as much as we have in creating it for you. Our goal is to create newsletters quarterly that reveal how historical Weyauwega times and events will be celebrated and revisited through fun presentations and displays with the intention of keeping these memories alive for the good of all! For announcements and pictures of events happening in-between newsletters, see us on Facebook—Including recent stories like the two pictured below at www.facebook.com/WeyauwegaAreaHistoricalSociety.

25th Anniversary of Train Derailment Remembered March 4, 2021

Trunk Shows presented to elementary school children at WF
And St. Peters Lutheran in May

THANK YOU

To everyone who sponsored a brick
for the soon-to-be installed historical
walkway in newly named Maasch
Community Park.

And To special contributors for gifts
that are greatly appreciated:

Howard Quimby, Terry Gerlach,
Darlene Schmidt, Bob & Judi Rehm,
Ken & Karleen Wolff,
Darlene Schmidt, Judy Keller,
Patty Barber, Becky & Trina,
Jeremy & all employees of the
City of Weyauwega.

I would like to help with keeping
history alive in Weyauwega!

Historians

Marietta Paap & Kim Heltemes

They're Making History

Brad and Margie Leonhardt have recently joined the Weyauwega Historical Society. The couple moved to Weyauwega last year after purchasing a historic house on Mill Street. They had passed by this house for years while visiting land they own on the Wolf River nearby. And often commented to each other how it was a shame such a wonderful house had been abandoned. But they were not sure if they were ready to take on such a large undertaking when they saw the for-sale sign. They had previously completed a remodel of an 1880s home and knew while it would be hard work, it would be worth the effort in the end. Brad had recently retired after serving 28 years in the Navy and 10 years working at Point Beach Nuclear Plant. He was spending most of his free time doing community theatre, which of course came to a halt with the COVID-19 outbreak. Since Brad had extra time on his hands and Margie's love of older homes, they decided to make the purchase. The house has undergone significant work by the Leonhardts which will continue for quite some time. The photo above shows what their house looked like back in 1898 (from *Weyauwega Remembers*, available for \$35 at the Weyauwega Library). Welcome Brad and Margie to Wega!

Any other pictures or history of their home are welcome and appreciated. Contact W.A.H.S.

A Trunkful of Treasures

April 13 Mary Baehman and Marietta Paap of the Weyauwega Area Historical Society met with Patty Barber and her husband Jim to receive a trunk, which had belonged to Patty's family.

Hazel (Plowman) Molenda, Patty's mother, Patty's great-grandmother, Elizabeth Zimmer, packed "all her earthly goods" in the beautiful hand-made trunk, when the Zimmers left Nuremburg, Germany and came to the United States @1885. "Eliza" married Theo Bauer who farmed in the town of Royalton. The trunk went to their daughter Caroline Plowman, Patty's grandmother. Patty's mother, Hazel Molenda, who recently passed away, had inherited the trunk and treasures, and wished for it to be donated to the WAHS, near the farm where her grandmother had lived in Waupaca County. WAHS is incredibly happy and thankful for this acquisition!

The Bricks Have Arrived!

It will not be long now before Silvermist Landscaping will be installing the bricks for a walkway in Maasch Community Park. The commemorative pavers will commence from a new arbor to the steps of the Little Red Schoolhouse Museum.

The walkway is “building a legacy – one brick at a time”. It is with much appreciation we thank all those who have sponsored a brick.

Once the project is complete, there will be an opportunity to sponsor others in the future.

So, come celebrate with us as we dedicate the walkway and open the museum for the summer.

Weyauwega's Historic Silo Needs a Facelift!!

Tree City Garden Club took on a project to “make lemonade out of lemons.” The plain white edifice stood next to the Weyauwega Mill Pond dam for many years. It was just part of a rye grist mill (once largest in the world) from the 1800's. With a vision, this small club worked diligently to collect the funds to have Weyauwega's history told.

As Weyauwega celebrated its sesquicentennial in 2006, a dedication to this beautiful landmark was celebrated as well. The devoted garden club no longer exists. But Weyauwega's history does.

It's obvious from this current picture that after 15 years, it needs some restoring. Please help the W.A.H.S. and the City raise the funds to accomplish this.

Stop into City Hall to donate to the fund!

Additional Copies of Weyauwega Remembers Available Now

Due to popular demand for the book prepared by Mary Werth and Joan & Bill Mallo for Weyauwega's sesquicentennial in 2006, a fourth edition has been printed. The 458-page bound book brings history, memories, pictures and more. The Weyauwega Library carries a copy to sell you for close-to-cost of just \$35. Stop in during their regular hours to purchase one for yourself.

LOOK FOR US!

As a member of the Weyauwega Area Chamber of Commerce, we look forward to seeing you at some of the many events planned for this spring, summer, and fall. We will continue to bring you treats to enjoy as you take in all Weyauwega has to offer.

So be sure to save the dates, starting with June 12, Wega Hometown Days - 9 a.m. - 11 p.m.

See the Weyauwega Area Chamber of Commerce website ([Weyauwega Area Chamber of Commerce, WI \(weyauwegachamber.com\)](http://WeyauwegaAreaChamberofCommerce,WI(weyauwegachamber.com))) for more information on their Summer of 2021 Calendar of Events and Thursday Nights on Main.

(<https://www.wayforwardwega.com/thursday-night-on-main/>).

WAHS exists to preserve the history of the City of Weyauwega and surrounding area -
we collect & display artifacts.

City of Weyauwega Yard Waste Site

The City of Weyauwega is able to offer a yard waste site to City residents under Wisconsin Department of Natural Resources License # 4285. City residents need to purchase a tag for \$1.00 at city hall to be on display in their vehicle when entering and exiting the yard waste site on Slough Road. If your schedule doesn't allow you the ability to arrive at city hall during regular business hours of 8:00am-4:30pm, Monday-Friday you can place \$1.00 in an envelope with your name, address and telephone number and place in one of the utility drop boxes and we will gladly mail you your tag. The entire yard waste site premises is under surveillance and violators will be prosecuted pursuant to city ordinance 412-25. The yard waste site accepts: grass clippings, leaves, garden waste and brush. Please follow signage for proper location within the site. The yard waste site **does not** accept: logs, trash, construction/remodeling debris, pavement of any type, stones, etc. Furthermore, the city yard waste site is **not** usable for lawn care services, professional tree services and non-residents. Your cooperation and vigilance is greatly appreciated to keep this service open and available.

How to Protect Yourself from the Costs to Remedy Sewer Back-Ups in Your Home

The City has determined that there may be certain areas within the City of Weyauwega that are prone or more susceptible to sanitary sewer backups. In some cases there may be problems with the City's infrastructure, and in other cases, there are things that cannot be prevented from the City's perspective.

When such a sewer backup does occur that is not of the negligence of the City of Weyauwega, the City's insurance carrier does not cover the cost associated with restoration, rehabilitation and clean-up of such incidents, accidents or occurrences. The costs to clean and restore your property after a sewer backup situation are usually placed on the homeowner, when the City is determined not to be negligible by law. With that, it behooves City residents to have one, or both, of the following protections in place:

1. Acquisition and possession of homeowners insurance that includes coverage for sanitary sewer backup situations.
2. A backflow preventer, which prevents sanitary sewer material from back-flowing out of the main lines and into your home.

These are two ways in which citizens may be able to limit their liability and provide funds for cleanup and restoration, should such a situation develop. The City hereby urges you to check into both of these options as it relates to providing assurances that you have protected your home and property.

The City of Weyauwega strives to minimize these situations from occurring and conducts routine regular maintenance of our lines and sanitary sewer infrastructure. However, there are times when excessively heavy precipitation or infrastructure obstructions occur that cause such backups.

If you have any questions on this matter, please feel free to contact City Hall at (920) 867-2630.

We hope that you find this information useful and that it provides you with the information necessary to make the right decisions for your property and possessions.

When a potential sewer backup situation is occurring at your home, it is absolutely important that your first call is to the City of Weyauwega, and not a private plumber or contractor. The City may be able to remedy the situation independently, where a private contractor may charge you for their services.

ELECTRONICS RECYCLING EVENT

SATURDAY, JUNE 19TH, 2021 8:00AM-11:00AM

WEYAUWEGA CITY HALL - 109 EAST MAIN STREET

ENTER THE EVENT FROM EAST ALFRED STREET

- FREE TO RECYCLE ELECTRONICS -

CPU Towers	Cables & Cords	Laptops	Routers
Tablets	Audio Equipment	Cameras	Record Players
Power Tools	Circuit Boards	I-Pods	Gaming Systems
Phones	Cable Boxes	Memory/RAM	Christmas Lights
Desktop Printers	Power Supplies	AC/DC Adapters	And More

- ELECTRONICS WITH CHARGES -

Flat and Tube Computer Monitors	\$20 each	Microwaves	\$15 each
Flat and Tube TVs (29" and under)	\$20 each	Dehumidifiers	\$20 each
Flat and Tube TVs (30" - 49")	\$40 each	Dorm-Size Refrigerators*	\$20 each
Flat and Tube TVs (50" and over)	\$60 each	Small A/C Units	\$20 each
Wood Console or Projection TVs	\$60 each	Ovens or Dishwashers	\$25 each
Large Copy Machines/Printers	\$15 each	Washers or Dryers	\$25 each

*Sorry, we do not accept full size refrigerators or freezers

For your safety and ours, please:

- ☑ Wipe down all materials prior to the event
- ☑ Put all materials in a trunk, truck bed, or trailer
- ☑ Stay in your vehicle at the event, we will unload

2020 Consumer Confidence Report Data

WEYAUWEGA WATERWORKS, PWS ID: 46904033

WATER SYSTEM INFORMATION

If you would like to know more about the information contained in this report, please contact Michael Lee at (920) 707-4020.

OPPORTUNITY FOR INPUT ON DECISIONS AFFECTING YOUR WATER QUALITY

Public Works Committee Meetings are held at City Hall on the 2nd Tuesday of the Month at 7:00 pm during summer months and 6:30 pm the rest of the year.

HEALTH INFORMATION

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

SOURCE(S) OF WATER

Source ID	Source	Depth (in feet)	Status
1	Groundwater	86	Active
3	Groundwater	90	Active
4	Groundwater	172	Active

To obtain a summary of the source water assessment please contact, Michael Lee at (920) 707-4020.

EDUCATIONAL INFORMATION

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally- occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

DEFINITIONS

Term	Definition
AL	Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
Level 1 Assessment	A Level 1 assessment is a study of the water system to identify potential problems and determine, if possible, why total coliform bacteria have been found in our water system.
Level 2 Assessment	A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine, if possible, why an E. coli MCL violation has occurred or why total coliform bacteria have been found in our water system, or both, on multiple occasions.
MCL	Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MFL	million fibers per liter
MRDL	Maximum residual disinfectant level: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
mrem/year	millirems per year (a measure of radiation absorbed by the body)
NTU	Nephelometric Turbidity Units
pCi/l	picocuries per liter (a measure of radioactivity)
ppm	parts per million, or milligrams per liter (mg/l)
ppb	parts per billion, or micrograms per liter (ug/l)
ppt	parts per trillion, or nanograms per liter
ppq	parts per quadrillion, or picograms per liter
TCR	Total Coliform Rule
TT	Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.

DETECTED CONTAMINANTS

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

DISINFECTION BYPRODUCTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2018)	Violation	Typical Source of Contaminant
HAA5 (ppb)	C	60	60	7	7		No	By-product of drinking water chlorination
TTHM (ppb)	C	80	0	14.3	14.3		No	By-product of drinking water chlorination

INORGANIC CONTAMINANTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2020)	Violation	Typical Source of Contaminant
BARIUM (ppm)		2	2	0.024	0.022 - 0.024		No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
NITRATE (NO3-N) (ppm)		10	10	3.73	2.01 - 3.73		No	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits
SODIUM (ppm)		n/a	n/a	17.40	8.16 - 17.40		No	n/a

Contaminant (units)	Action Level	MCLG	90th Percentile Level Found	# of Results	Sample Date (if prior to 2020)	Violation	Typical Source of Contaminant
COPPER (ppm)	AL=1.3	1.3	0.2170	0 of 10 results were above the action level.		No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
LEAD (ppb)	AL=15	0	6.10	0 of 10 results were above the action level.		No	Corrosion of household plumbing systems; Erosion of natural deposits

RADIOACTIVE CONTAMINANTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2020)	Violation	Typical Source of Contaminant
GROSS ALPHA, EXCL. R & U (pCi/l)		15	2	2.9	1.7 - 2.9		No	Erosion of natural deposits
RADIUM, (226 + 228) (pCi/l)		5	0	1.4	0.8 - 1.4		No	Erosion of natural deposits
GROSS ALPHA, INCL. R & U (n/a)		n/a	n/a	4.6	2.4 - 4.6		No	Erosion of natural deposits
COMBINED URANIUM (ug/l)		30	0	2.5	0.8 - 2.5		No	Erosion of natural deposits

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Weyauwega Waterworks is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

Deficiency Description and Progress to Date	Date System Notified	Scheduled Correction Date
S2. The roof and sidewalls of all structures shall be watertight with no openings except properly constructed vents, manholes, overflows, risers, drains, pump mountings, control ports, or piping for inflow and outflow, per s. NR 811.64(10) (a), Wis. Adm. Code. The City's elevated storage tank at Mill St. has unsealed gaps where the sidewall meets the roof.	12/4/2019	10/31/2021
S1. The overflow pipe of a water storage structure shall discharge with a downward opening, per s. NR 811.64(4)(a)1, Wis. Adm. Code. The overflow pipes of the City's ground storage reservoir at Elizabeth St. and elevated storage tanks at Mill St. and Slough Rd. discharge with a horizontal opening. It should also be noted that the overflow pipe of the elevated storage tank at Mill St. is not constructed of an approved material (see Non-Significant Deficiency 1).	12/4/2019	10/31/2021

S1. The overflow pipes for reservoir on Elizabeth Street was corrected in 2021. The tank on Slough Road has parts purchased and waiting to be completed yet in 2021. The tank on Mill Street will be taken down this summer.

S2. The elevated storage tank at Mill Street will be retired this summer and removed.

In an effort to protect the structural integrity of the City's water distribution system without significant and unnecessary added costs, and to promote responsible outdoor watering, the Common Council of the City of Weyauwega approved an ordinance to preserve, conserve and limit water use for lawns, grass, outside plants, trees, shrubs and similar plants.

There shall be absolutely NO watering by unattended sprinkler systems between 11:00 a.m. and 6:00 p.m. Even-numbered addresses shall only be allowed to water

before 11:00 a.m. and after 6:00 p.m. on even-numbered days. Odd-numbered addresses shall only be allowed to water before 11:00 a.m. and after 6:00 p.m. on odd-numbered days.

Use of handheld sprayers/hoses for watering is allowed at any time on any day. Newly seeded and newly sod lawns may be watered by sprinkler every day with a permit issued by the city but only before 11:00 a.m. and after 6:00 p.m.

Violations of this ordinance will be penalized. First offense will be issued a written warning. Second offense will be fined \$10 - \$25. Third and subsequent offenses will be fined \$25 - \$100.

For more specific information, or to discuss this ordinance, please contact City Hall at (920) 867-2630.

HOME POOL SAFETY

As the summer approaches, the City of Weyauwega would like to take the opportunity to remind residents that if you choose to put up any type of pool the liability lies with the property owner. It is important to cover the pool, remove ladders, and protect the area to prevent accidents. Certain pools do require a permit; therefore, please contact City Hall at (920) 867-2630 before installing or erecting any pools.

HOUSE NUMBERS

The City of Weyauwega wants to remind all residents that to ensure public safety and well being it is essential to have house numbers visible for Police, EMS, Fire and all safety personnel. The City of Weyauwega code §419-16 requires the following: The numbers shall be conspicuously placed immediately above, on or at the side of the proper door of each building so that they can be plainly seen from the street. Whenever any building is more than 50 feet from the street line, the number of the building shall be conspicuously displayed at the street line, near the walk, driveway or common entrance to such building, and upon a gatepost, fence, tree, post or other appropriate place so as to be easily discernible from the sidewalk. The numbers shall be not less than 2½ inches in height, with dark lettering against a light background. Script numbers may not be used as the primary address numbers. Periodically the City Administrator and/or Police, Fire or EMS personnel will regularly check for compliance.

STREET LIGHTS

If you notice a street light out in the City please contact City Hall at 867-2630 and notify us of the location of the light pole. If it is possible to get the pole number off of the pole that would be greatly appreciated as well. The City will then contact We Energies and relay the information to them for the repair.

ALL-TERRAIN VEHICLES AND OFF-ROAD MOTOR VEHICLE OPERATION

As ATVs/UTVs become more popular while sharing and operating on the roadways, a few reminders to keep in mind while operating on the City roadways.

454-38 ATV/UTV Routes

F(1) All streets in the City of Weyauwega are open to ATVs/UTVs

G(2) All ATVs/UTVs operators on routes/streets shall observe posted roadway speed limits; not to exceed 35 miles per hour.

G(4) ATV's/UTVs operated on City streets shall be currently registered by the State of Wisconsin.

G(5) At all times while operating an ATV/UTV on City streets or sidewalks, operators born after January 1, 1988, shall have passed an approved Wisconsin ATV/UTV safety course. The driver of an ATV/UTV shall obey all State of Wisconsin laws regarding the operation of ATVs/UTVs. Children 12 to 15 must be accompanied by an adult, regardless of a safety certificate.

For more information: <https://ecode360.com/12457574>

Community and Meeting Room Available for Public and Private Use

Many community groups have already been holding meetings in the Municipal Building/Community Room. There is no charge for use of these facilities for regular public meetings. The Community Room is also available to be rented for private events at a rate of \$20 per hour or \$80 per day, plus a refundable security deposit. If your community group is seeking a meeting space, or you would like to hold your private event in the community Room, please contact City Hall at 920-867-2630 for availability.

Park Shelter Rental

The City of Weyauwega offers rental opportunities of six shelters at the Weyauwega Community Park at 411 W. High Street. The newest shelter with the attached bathrooms is \$55 a day to rent and the other five shelters are \$45 for the day. All of the shelters have electricity in them. If interested in renting a shelter this summer, contact City Hall at 920-867-2630 for availability.

WEYAUWEGA ARTS FILM PROJECT:

This summer, in July, we will be filming interviews for the Great Weyauwega Train Derailment movie. The movie will be screened at the Gerold Opera House in March, 2022.

If you are interested in talking about your memories of the events on and following March 4th, 1996, please let us know!

We are also putting together a Youth Panel. We would like to hear from people from age fourteen to twenty-five; these people will participate in the interviewing process, and will have discussions on the importance of history.

Please contact Amanda Loehrke: email Amloehrke@gmail.com.

The City of Weyauwega will continue to embrace its great heritage and history while actively researching, attracting and implementing new opportunities and business for residents and guests to improve their quality of life through cost effective quality public services, great community events and recreational activities appropriate for all ages and cultures.

The City of Weyauwega strives to sustain a quality of life encompassed with its rich history.
