

2022 City of Weyauwega

STATE OF THE CITY – CITY ADMINISTRATOR, JEREMY SCHROEDER

With the varying weather that has been experienced over the last month it is hard to believe that 2022 is approaching the halfway mark. However, it is very nice to see the sun, trees with leaves and green grass again to brighten everyone's day. Given the nicer weather the outdoor recreational activities have been very popular and active within the city. The canoe/kayak launch has been very busy along with fishing on the lake, bike rides and walking in the park.

The Community Park will celebrate 50 years on June 18, 2022. Through the hard work and generosity of Dr. Lloyd Maasch the Community Park was established on June 18, 1972. The park has undergone many improvements throughout the years and currently has a project underway with the new playground equipment by Shelters 2 & 3. Additionally, the main entrance to the park and the parking area between shelters 1 & 2 will see new asphalt. The current road and parking lot has deteriorated significantly requiring the needed paving. The Community Park offers many recreational activities and room for events. Children and families can enjoy the swim lake to cool off on the warm summer days, play some basketball or tennis, take in a youth baseball or adult softball games, host a picnic or family event in one of the shelters, tour the Little Red School House or walk throughout the park enjoying the landscape. During the June 18 50th Anniversary Celebration at the Community Park a new sign and name will be revealed with the new name of the park, "Maasch Community Park" in honor of Dr. Lloyd Maasch.

Besides all of the outdoor recreational activities there are numerous other events for citizens and guests to enjoy within the community. The Weyauwega Chamber of Commerce along with other local groups have many events planned for the community throughout the summer. Events will feature delicious food, music, farmers markets, parades, carnival games, rides, car show and much, much more. These groups are made of up citizens, business owners and employees and city officials and staff that are passionate about Weyauwega. Please consider attending these events and perhaps even becoming a member of an organization or volunteering.

City staff and elected officials continue to evaluate, discuss and plan for the future of the city. The city's Outdoor Recreation Plan and Comprehensive Plan will be undergoing reviews and updates throughout the remainder of this year. Both of these plans guide decision making and provide projections for future projects, growth and opportunities within the city. Discussions begin with the appropriate committees and eventually will be recommended to the full council for final approval and adoption.

The city has a lot to offer everyone and many work very hard to provide, maintain and promote the opportunities. Through quality discussions, involvement of groups, open minds and positive thinking the opportunities are endless for the community. Promotion, support and focus need to emphasize the positives to encourage and welcome new people, businesses and events to the community. Set an example by volunteering, joining a group or committee or attend meetings to support, share and discuss ways for improvement. Together all of us can work as a team to grow and improve the community in ways that will continue to enhance the quality of life and encourage others to reside here.

CITY FIREWORKS ON JULY 3RD

**Fireworks will be held on Sunday, July 3rd
over the Weyauwega Lake.**

**Please stay tuned for updates
or changes on this event.**

DOG & CAT LICENSING

2022 Dog and Cat Licenses are available at City Hall, 109 E. Main Street. **Animal licenses expire each year on December 31st and must be renewed by April 1st to avoid a late fee.**

- Spayed Female and Neutered Male \$3.00
- Unspayed Female and Unneutered Male \$8.00

Deadline: A late fee of \$5.00 will be charged if the owner of a dog 5 (five) months of age or over fails to obtain a license prior to April 1st of each year or within 30 days of acquiring ownership of a licensable animal.

Proof of rabies vaccine is required before a license will be issued..

*Dog & Cat License Ordinance
(Municipal Code Sec.190)*

GRASS CLIPPINGS AND STORM DRAIN MANAGEMENT

Did you know grass clippings and leaf litter are pollutants? Yard debris, leaves, shrub trimmings, grass clippings, and other tree materials cause significant source of storm water pollution. When lawn waste is blown into the street, it can clog storm drains and cause drainage and flooding issues.

Storm drains are not connected to the treatment plant! There is no way to remove the waste from the water before getting to the streams, rivers and lakes. As the waste breaks down in our local waterways, it adds excess nutrients like nitrogen and phosphorus to the water. This is how the growth of algae and weeds grow.

Suggested mowing practices include leaving the grass clippings in the lawn or compost them. Direct grass clippings away from streets, driveways, sidewalks and other paved areas. Make sure to sweep or blow clippings off paved surfaces and back into the lawn!

MEDICATION DROP-BOX LOCATION

Weyauwega City Hall • 109 E. Main Street • Lobby Hours from 8 am to 4:30 pm (Mon-Fri)

WHAT TO DROP

- Expired/Unwanted Prescription Meds
- Over-the-Counter Medications
- Medication Samples
- Pet Medications
- Liquid Medications
- Medicated Ointments and Creams
- Inhalers
- Vitamin Supplements

WHAT NOT TO DROP

- Needles/Lancets/Syringes
- Thermometers
- IV Bags
- Nebulizer Machines
- Diabetes Test Kits
- Oxygen Tanks
- Personal Care Products (shampoo, lotion, etc.)

NEW GUIDELINES: Empty pills into a plastic sealable bag. Keep liquids, creams, powders in original containers. Place liquid medication bottles in a plastic bag. Recycle empty pill bottles and paper boxes at home.

If you have any questions, contact the Waupaca County Solid Waste Department at 715-258-6240.

KEEP YOUR GRASS CUT

The Common Council finds that lawns, grasses, and noxious weeds on non-agricultural lots or parcels of land, as classified under the City Zoning Code, within the City of Weyauwega **which exceed eight (8) inches in length** adversely affect the public health and safety of the public in that they tend to emit pollen and other discomforting bits of plants, constitute a fire hazard, and a safety hazard in that debris can be hidden in the grass, interferes with the public convenience, and adversely affects property values of other land within the City.

For that reason, any non-agricultural lawn, grass, or weed on a lot or other parcel of land **which exceeds eight (8) inches in length** is hereby declared to be a public nuisance.

The City of Weyauwega may issue written notice to require the cutting of grasses/weeds exceeding eight (8) inches in length. In the event that the issue is not resolved within the timeline identified in writing, the City reserves the right to authorize/contract for the grasses or weeds to be cut, with applicable costs and expenses to be billed to the property owner.

*Regulation of Length of Lawn and Grasses
(Municipal Code Sec. 283-6)*

NUISANCE/JUNK ORDINANCE

Weyauwega residents with the spring time upon us, the Weyauwega Police Department reminds you to do an inspection of your yard, property or properties. The City Administrator in conjunction with the Weyauwega Police Department encourages City Residents to comply with the ordinances that help to keep our great community looking orderly and respectful. The City of Weyauwega discourages against the collection of junk and unsightly materials within the community. Weyauwega City Ordinance 283-8 prohibits unhealthy, hazardous or unsightly materials on public or private property. City Ordinance 454-26 prohibits inoperable, wrecked or discarded vehicles. City Ordinance 378-1 explains parameters of outside storage on private property. All of these ordinances are accessible online at <http://ecode360.com/WE2856> or available at City Hall for your review of the definition. Should you have any question with regards to the interpretation of the ordinance or if your property complies, appointments can be made and an officer will assist you with your

inspection(s). The City Administrator along with the Weyauwega Police Department continually evaluate properties for compliance throughout the year. Identified compliance violations will be contacted and handled on a case by case basis. Fines for non-compliance can range from \$100.00 – \$500.00.

Waupaca County Processing & Transfer Facility located at E4981 Swan Road in Manawa, 715-258-6249, can take most items with a small fee. 3-F Dismantling is a local recycling and salvage service located at 721 E Alfred Street, 715-572-1024. They can take many items including vehicles, scrap metal, and appliances.

The City Administrator and Weyauwega Police Department encourages your partnership in helping keep Weyauwega a clean, safe place to live!

Reminders to Property Owners with Pets – Please Respect your Neighbors

Chapter 190-6 of the Code of Ordinances for the City of Weyauwega states:

1. No person having in his/her possession or ownership any dog or other domestic animal shall allow the animal to run at large within the City. The owner of animal, whether licensed or unlicensed, shall keep his/her animal tied or enclosed in a proper enclosure so as not to allow said animal to interfere with the passing public or neighbors. Any animal running at large unlicensed and required by state law or City ordinance to be licensed shall be seized and impounded by a humane or law enforcement officer or animal warden.

Chapter 190-10 of the Code of Ordinances for the City of Weyauwega states:

1. **Removal of Fecal Matter.** The owner or person in charge of any dog, cat, horse, or other animal

shall not permit solid fecal matter of such animal to deposit on any street, sidewalk, alley or other public or private property, unless such matter is immediately removed therefrom by said owner or person in charge. This Section shall not apply to a person who is visually or physically handicapped.

2. **Accumulation of Fecal Matter Prohibited on Private Yards.** The owner or person in charge of the dog or cat must also prevent accumulation of animal waste on his/her own property by regularly patrolling and properly disposing of the fecal matter.

The nice weather brings out citizens as well as their pets. Please respect everyone in the community by making sure you clean up after your pets. Keep the outdoors enjoyable for everyone!

2022 Summer Library Program

OCEANS of POSSIBILITIES

WEYAUWEGA PUBLIC LIBRARY
301 S. Mill Street, Weyauwega

The 2022 Summer Library Program starts on Monday, June 6th & ends on Saturday, August 6th! Track your reading online! Anyone up to age 18 may sign up.

KICK OFF PARTY: JUNE 6th at 6pm - Kick off the summer reading program with themed games, activities, snacks and more

***In-Person Performances:**

STUART STOTTS (musician) JUNE 9 at 9am
CARLOS NIETO III (anime artist) JUNE 14 at 3pm
GREAT RONDINI (mad scientist) JUNE 23 at 11am
LYNN MARCKS (storyteller/musician) JULY 11 at 11am
JEFF McMULLEN (comedy magic) JULY 28 at 11am

WEDNESDAYS: Toddler Time at 10am

THURSDAYS: Themed Activity or Event at 2pm

FRIDAYS: Story Time & Crafts at 10am

FRIDAYS: Kid-friendly Movie at 2pm

Join us online at: <http://wegalibrary.beanstack.org>

Download the app through Google Play or App Store to log reading on your device.

Sign up your whole family at one time. Log & track each child's reading online using your device or computer. Earn prizes at the half way point and at the finish. Read above & beyond to earn a chance at the GRAND PRIZE \$50 Amazon Gift Card!

If you choose not to participate online, there are two sheets to fill up with your reading time. Turn in the completed sheets to earn prizes. Read above & beyond to earn a chance at the GRAND PRIZE \$50 Amazon Gift Card!

Call or email for more information

Call: 920-867-3742

Email: wey@wegalibrary.org

LIBRARY HOURS

9:30-6 pm (MON-THU)

9:30-5 pm (FRI)

9:30-12:00 pm (SAT)

THE WEYAUWEGA SWIM LAKE

The Weyauwega Swim Lake located in the Weyauwega Community Park will open for the 2022 season on Wednesday, June 8, 2022. Open swim hours are Monday thru Friday 12:30 pm - 6:00 pm and Saturday/Sunday from 11:00 am – 7:00 pm.

Swimming lessons are offered in the mornings Monday thru Friday for a half hour starting at either 11:00 am or 11:30 am. Evening swim lessons are held twice a week, either Monday/Wednesday or Tuesday/Thursday from 6:15 pm – 7:00 pm.

The first session of morning swimming lessons will be offered thru the Weyauwega-Fremont School District Summer School Program. Please contact the School District to sign up for morning lessons only from June 13-July 1. Times will vary.

Registration for all other lesson times and sessions will be done at the swim lake office before the start of each session.

Session I Lessons

Monday-Friday, June 13 to July 1

Session II Lessons

Monday-Friday, July 11 to July 29

Session III Lessons

Monday-Friday, August 1 to August 19

- **Level One- Introduction to Water Skills**
- **Level Two – Fundamental Aquatic Skills**
- **Level Three – Stroke Development**
- **Level Four – Stroke Improvement**
- **Level Five – Stroke Refinement**
- **Level Six – Advanced**

The cost for lessons is \$15 per person for city resident and \$25 for non-city residents who have purchased a season pass, or \$25 for city residents and \$40 for non-city residents without a season pass.

Please Note: Each level has a maximum of 8 students per lesson time so please try to have a second choice in mind when registering in case the time you want is full. Additional classes may be opened if the need arises.

PRIVATE LESSONS - \$15.00 PER HOUR SCHEDULE WITH INSTRUCTOR FOR ANY TIME

Season Passes and Day Passes

Season passes will be available at the swim lake during open swim hours. The fees are as follows:

City of Weyauwega Yard Waste Site

The City of Weyauwega is able to offer a yard waste site to **City** residents under Wisconsin Department of Natural Resources License # 4285. City residents need to purchase a tag for \$1.00 at city hall to be on display in their vehicle when entering and exiting the yard waste site on Slough Road. If your schedule doesn't allow you the ability to arrive at city hall during regular business hours of 8:00am-4:30pm, Monday-Friday you can place \$1.00 in an envelope with your name, address and telephone number and place in one of the utility drop boxes and we will gladly mail you your tag. The entire yard waste site premises is under surveillance and violators will be prosecuted pursuant to city ordinance 412-25. The yard waste site accepts: grass clippings, leaves, garden waste and brush. Please follow signage for proper location within the site. The yard waste site **does not** accept: logs, trash, construction/remodeling debris, pavement of any type, stones, etc. Furthermore, the city yard waste site is not usable for lawn care services, professional tree services and non-residents. Your cooperation and vigilance is greatly appreciated to keep this service open and available.

How to Protect Yourself from the Costs to Remedy Sewer Back-Ups in Your Home

The City has determined that there may be certain areas within the City of Weyauwega that are prone or more susceptible to sanitary sewer backups. In some cases there may be problems with the City's infrastructure, and in other cases, there are things that cannot be prevented from the City's perspective.

When such a sewer backup does occur that is not of the negligence of the City of Weyauwega, the City's insurance carrier does not cover the cost associated with restoration, rehabilitation and clean-up of such incidents, accidents or occurrences. The costs to clean and restore your property after a sewer backup situation are usually placed on the homeowner, when the City is determined not to be negligible by law. With that, it behooves City residents to have one, or both, of the following protections in place:

1. Acquisition and possession of homeowners insurance that includes coverage for sanitary sewer backup situations.
2. A backflow preventer, which prevents sanitary sewer material from back-flowing out of the main lines and into your home.

These are two ways in which citizens may be able to limit their liability and provide funds for cleanup and restoration, should such a situation develop. The City hereby urges you to check into both of these options as it relates to providing assurances that you have protected your home and property.

The City of Weyauwega strives to minimize these situations from occurring and conducts routine regular maintenance of our lines and sanitary sewer infrastructure. However, there are times when excessively heavy precipitation or infrastructure obstructions occur that cause such backups.

If you have any questions on this matter, please feel free to contact City Hall at (920) 867-2630.

We hope that you find this information useful and that it provides you with the information necessary to make the right decisions for your property and possessions.

When a potential sewer backup situation is occurring at your home, it is absolutely important that your first call is to the City of Weyauwega, and not a private plumber or contractor. The City may be able to remedy the situation independently, where a private contractor may charge you for their services.

WEYAUWEGA AREA HISTORICAL SOCIETY

What lurks in what is normally dark corners of the City Hall basement?

Memories, old documents and artifacts. Yes! Lots of history! Thanks to the City for providing a safe, large, climate-controlled area for storage. With another generous donation from Member Howard Quimby, Weyauwega Area Historical Society (WAHS) was able to add more shelving to the units provided by the City. These shelves hold the opportunities for updating the five display units at City Hall; information to give another fourth-grade “Trunk History Show”; resources for special programs as the November Veterans’ Program and local history programs, (like the recent program with author, Paul Schanen and Weyauwega resident, Lana Hudson), as they spoke about arrow-heads and historical stones of the area. With the support material that is available, it can help answer questions from years ago regarding Weyauwega schools, buildings, people, and more.

This information doesn’t just come from a handful of people. It comes with caring and concern for the Weyauwega area from kind people such as yourself! Keep WAHS in mind as you sort through personal history or even that of a loved one you may have lost. Photos, locally historical books, artifacts, etc. are all helpful to “tell the story”. “Weyauwega Chronicles” also adorn the basement shelves. So, these newspapers are not needed. WAHS is working with the library to update your access to the publications from microfilm (which is currently available at the Weyauwega Public Library) to digital. How great would it be to access Weyauwega’s newspaper information right from your own home, and then be able to print it?

WAHS wishes to sincerely thank Weyauwega-Fremont School District for its continuing support of all our efforts. With the renovation by Ryan Lemke’s Tech Ed. Department of a recently-purchased “people-mover” wagon, WAHS will be providing rides for an historic tour of Weyauwega during the September 10 Horse & Buggy Days event. We can’t wait to unveil it for you! However, the tours will not deter from pie. As usual, WAHS’ Pie Sale will be available for your appetite immediately following the parade.

AND, speaking of unveiling – We look forward to seeing everyone on Saturday, June 18, as Weyauwega presents a couple of great historical moments in the city park. Along with the City renaming and rededicating the park, WAHS will also reveal a new sign by the Little Red Schoolhouse Museum immediately following the 10 a.m. City program. This will be the opening of the museum for the summer. Summer hours will be from 1 p.m. to 4 p.m. every Sunday thereafter until fall. If you like people and would like to help tell the story of education in Weyauwega, please call Marietta at 920-862-0118 to be a docent for one or more summer Sundays. Recently sponsored bricks will also be a part of the Memorial Walkway at this time. Is it too late to get a brick? No! Orders will continue to be made after five requests are received. Applications are available at City Hall, at WAHS Facebook page, or by calling 920-538-2025. Any WAHS questions may also be referred to this number or emailed to: marybaehman@hotmail.com.

Other things to consider –

- Becoming a member. Welcome to Richard & Kathy Wagner, Rich & Ellen Silvestri, and Lloyd & Sue Mathison!
- Sharing pictures you might have of former H&B Days. WAHS to display some.
- Being an advertiser in the upcoming summer issue of the WAHS Newsletter.
- Look for the new, updated sign located by the Historical Silo soon.
- Look for WAHS this summer and fall - as we continue to work together for the good of all!

**CONGRATULATIONS TO 61st ANNUAL HORSE & BUGGY DAYS ROYALTY
Queen Marietta Paap & King Howard Quimby**

WATER SYSTEM INFORMATION

If you would like to know more about the information contained in this report, please contact Michael Lee at (920) 707-4020.

OPPORTUNITY FOR INPUT ON DECISIONS AFFECTING YOUR WATER QUALITY

Public Works Committee Meetings are held at City Hall on the 2nd Tuesday of the month at 7:00 pm. City Council meetings are held at City Hall on the 3rd Monday of the month at 6:30 pm.

HEALTH INFORMATION

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

SOURCE(S) OF WATER

Source ID	Source	Depth (in feet)	Status
1	Groundwater	86	Active
3	Groundwater	90	Active
4	Groundwater	172	Active

To obtain a summary of the source water assessment please contact, Michael Lee at (920) 707-4020.

EDUCATIONAL INFORMATION

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally- occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.

- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

DEFINITIONS

Term	Definition
AL	Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
HAL	Health Advisory Level: The concentration of a contaminant which, if exceeded, poses a health risk and may require a system to post a public notice.
Level 1 Assessment	A Level 1 assessment is a study of the water system to identify potential problems and determine, if possible, why total coliform bacteria have been found in our water system.
Level 2 Assessment	A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine, if possible, why an E. coli MCL violation has occurred or why total coliform bacteria have been found in our water system, or both, on multiple occasions.
MCL	Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MFL	million fibers per liter
MRDL	Maximum residual disinfectant level: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
mrem/year	millirems per year (a measure of radiation absorbed by the body)
NTU	Nephelometric Turbidity Units
pCi/l	picocuries per liter (a measure of radioactivity)
ppm	parts per million, or milligrams per liter (mg/l)
ppb	parts per billion, or micrograms per liter (ug/l)
ppt	parts per trillion, or nanograms per liter
ppq	parts per quadrillion, or picograms per liter
SMCL	Secondary drinking water standards or Secondary Maximum Contaminant Levels for contaminants that affect taste, odor, or appearance of the drinking water. The SMCLs do not represent health standards.
TCR	Total Coliform Rule
TT	Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.

DETECTED CONTAMINANTS

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

DISINFECTION BYPRODUCTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2018)	Violation	Typical Source of Contaminant
HAA5 (ppb)	C	60	60	3	3		No	By-product of drinking water chlorination
TTHM (ppb)	C	80	0	11.7	11.7		No	By-product of drinking water chlorination

INORGANIC CONTAMINANTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2020)	Violation	Typical Source of Contaminant
BARIUM (ppm)		2	2	0.024	0.022 - 0.024	8/4/2020	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
NITRATE (NO3-N) (ppm)		10	10	3.88	1.94 - 3.88		No	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits
SODIUM (ppm)		n/a	n/a	17.40	8.16 - 17.40	8/4/2020	No	n/a

Contaminant (units)	Action Level	MCLG	90th Percentile Level Found	# of Results	Sample Date (if prior to 2020)	Violation	Typical Source of Contaminant
COPPER (ppm)	AL=1.3	1.3	0.2170	0 of 10 results were above the action level.	8/18/2020	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
LEAD (ppb)	AL=15	0	6.10	0 of 10 results were above the action level.	8/18/2020	No	Corrosion of household plumbing systems; Erosion of natural deposits

RADIOACTIVE CONTAMINANTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2020)	Violation	Typical Source of Contaminant
GROSS ALPHA, EXCL. R & U (pCi/l)		15	0	2.9	1.7 - 2.9	7/15/2020	No	Erosion of natural deposits
RADIUM, (226 + 228) (pCi/l)		5	0	1.4	0.8 - 1.4	7/15/2020	No	Erosion of natural deposits
GROSS ALPHA, INCL. R & U (n/a)		n/a	n/a	4.6	2.4 - 4.6	7/15/2020	No	Erosion of natural deposits
COMBINED URANIUM (ug/l)		30	0	2.5	0.8 - 2.5	7/15/2020	No	Erosion of natural deposits

CONTAMINANTS WITH A HEALTH ADVISORY LEVEL OR A SECONDARY MAXIMUM CONTAMINANT LEVEL

The following tables list contaminants which were detected in your water and that have either a Health Advisory Level (HAL) or a Secondary Maximum Contaminant Level (SMCL), or both. There are no violations for detections of contaminants that exceed Health Advisory Levels, Groundwater Standards or Secondary Maximum Contaminant Levels. Secondary Maximum Contaminant Levels are levels that do not present health concerns but may pose aesthetic problems such as objectionable taste, odor, or color. Health Advisory Levels are levels at which concentrations of the contaminant present a health risk.

Contaminant (units)	Site	SMCL (ppm)	HAL (ppm)	Level Found	Range	Sample Date (if prior to 2021)	Typical Source of Contaminant
ALUMINUM (ppm)		0.05	0.2	0.01	0.00 - 0.01	8/15/17	Runoff/leaching from natural deposits
CHLORIDE (ppm)		250		40.70	23.80 - 40.70	8/15/17	Runoff/leaching from natural deposits, road salt, water softeners
MANGANESE (ppm)		0.05	0.3	0.04	0.00 - 0.04	8/15/17	Leaching from natural deposits

ADDITIONAL HEALTH INFORMATION

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Weyauwega Waterworks is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at www.epa.gov/safewater/lead.

WATER CONSERVATION ORDINANCE REMINDER

In an effort to protect the structural integrity of the City's water distribution system without significant and unnecessary added costs, and to promote responsible outdoor watering, the Common Council of the City of Weyauwega approved an ordinance to preserve, conserve and limit water use for lawns, grass, outside plants, trees, shrubs and similar plants.

This ordinance was approved by the City Council in 2013 and closely resembles water conservation ordinances adopted by the City of Waupaca, and other municipalities.

There shall be absolutely NO watering by unattended sprinkler systems between 11:00 a.m. and 6:00 p.m. Even-numbered addresses shall only be allowed to water before 11:00 a.m. and after 6:00 p.m. on even-numbered days. Odd-numbered addresses shall only be allowed to water before 11:00 a.m. and after 6:00 p.m. on odd-numbered days.

Use of handheld sprayers/hoses for watering is allowed at any time on any day. Newly seeded and newly sod lawns may be watered by sprinkler every day with a permit issued by the city but only before 11:00 a.m. and after 6:00 p.m.

Violations of this ordinance will be penalized. First offense will be issued a written warning. Second offense will be fined \$10 - \$25. Third and subsequent offenses will be fined \$25 - \$100.

For more specific information, or to discuss this ordinance, please contact City Hall at (920) 867-2630.

HOUSE NUMBERS

The City of Weyauwega wants to remind all residents that to ensure public safety and well being it is essential to have house numbers visible for Police, EMS, Fire and all safety personnel. The City of Weyauwega code §419-16 requires the following: The numbers shall be conspicuously placed immediately above, on or at the side of the proper door of each building so that they can be plainly seen from the street. Whenever any building is more than 50 feet from the street line, the number of the building shall be conspicuously displayed at the street line, near the walk, driveway or common entrance to such building, and upon a gatepost, fence, tree, post or other appropriate place so as to be easily discernible from the sidewalk. The numbers shall be not less than 2½ inches in height, with dark lettering against a light background. Script numbers may not be used as the primary address numbers. Periodically the City Administrator and/or Police, Fire or EMS personnel will regularly check for compliance.

STREET LIGHTS

If you notice a street light out in the City please contact City Hall at 867-2630 and notify us of the location of the light pole. If it is possible to get the pole number off of the pole that would be greatly appreciated as well. The City will then contact We Energies and relay the information to them for the repair.

ATV/UTV REMINDERS

As ATV and UTV use becomes more and more popular, the Weyauwega Police Department would like to remind you to ride with caution. Remember the following: (1) Headlamps and taillights must be turned on at all times. (2) Youth under 16 are required to have safety certificates and be accompanied by a parent or guardian within instructional distance while operating on the roadway. (3) All persons under 18 operating and or riding on an ATV/UTV must wear a helmet. (4) Be sure to check that your ATV is a two seated machine; if it is not indicated as such you cannot have a passenger. (5) All ATV/UTV's operated on the roadway must be registered and properly display registration. Rear registration must display as 7.5" long and 4" high White plate with Black lettering.

(6) Follow all posted speed limit signs unless indicated otherwise specific to ATV/UTV.

The Weyauwega Police Department will be holding an informational meeting on the do's and don'ts of ATV riding on Saturday, June 25th starting at 10 am at Weyauwega City Hall. Watch for more information on the Wega PD Facebook page and the City of Weyauwega Facebook page.

Community and Meeting Room Available for Public and Private Use

Many community groups have already been holding meetings in the Municipal Building/Community Room. There is no charge for use of these facilities for regular public meetings. The Community Room is available to be rented for private events at a rate of \$20 per hour or \$80 per day, plus a refundable security deposit. If your group is seeking a meeting space, or you would like to hold your private event in the Community Room, please contact City Hall at 920-867-2630 for availability.

Park Shelter Rental

The City of Weyauwega offers rental opportunities of six shelters at the Weyauwega Community Park at 411 W. High Street. The newest shelter with the attached bathrooms is \$55 a day to rent and the other five shelters are \$45 for the day. All of the shelters have electricity in them. If interested in renting a shelter this summer, contact City Hall at 920-867-2630 for availability.

HOME POOL SAFETY

As the summer approaches, the City of Weyauwega would like to take the opportunity to remind residents that if you choose to put up any type of pool the liability lies with the property owner. It is important to cover the pool, remove ladders, and protect the area to prevent accidents. Certain pools do require a permit; therefore, please contact City Hall at (920) 867-2630 before installing or erecting any pools.

UPCOMING 2022 ELECTIONS

- August 9, 2022 – Partisan Primary
- November 8, 2022 – General Election

Voting for city residents takes place in the Community Room of the City of Weyauwega Municipal Building at 109 E. Main Street. Polls are open from 7 am to 8 pm.

Photo ID is required to vote. If you do not have a photo ID you may obtain a free ID for voting from the Division of Motor Vehicles. Information on getting a free ID card can be found at bringit.wi.gov.

If you need to register to vote, you can do it now to save time on Election Day. Go to myvote.wi.gov to register online or contact Clerk Rebecca Loehrke at City Hall. You can also find out information on voting by absentee ballot and who's on the ballot for each election at myvote.wi.gov.

Stay informed by following the City of Weyauwega on Facebook at City of Weyauwega or on the City Website at www.cityofweyauwega-wi.gov
