

2025 City of Weyauwega

2026 ELECTION CALENDAR

There are no elections remaining for 2025. The 2026 Elections are listed below:

- February 17, 2026 – Spring Primary (If Needed)
- April 7, 2026 – Spring Election
- August 11, 2026 – Partisan Primary
- November 3, 2026 – General Election

Voting for city residents takes place in the Community Room of the City of Weyauwega Municipal Building at 109 E. Main Street. Polls are open from 7 am to 8 pm.

Photo ID is required to vote. If you do not have a photo ID you may obtain a free ID for voting from the Division of Motor Vehicles. Information on getting a free ID card can be found at bringit.wi.gov.

If you have not voted before or if it's been a while, had a name change or moved you need to register to vote. You can do it now to save time on Election Day. Go to myvote.wi.gov to register online or contact Clerk Rebecca Loehrke at City Hall. You can also find out information on voting by absentee ballot and who's on the ballot for each election at myvote.wi.gov.

Stay informed by following the City of Weyauwega on Facebook at City of Weyauwega or on the City Website at www.cityofweyauwega-wi.gov

PARK SHELTER RENTAL

The City of Weyauwega offers rental opportunities of six shelters in Maasch Community Park located at 411 W High Street. The newest shelter with the attached bathrooms is \$60 a day to rent and the other five shelters are \$50 for the day. All of the shelters have electricity in them. If interested in renting a shelter this summer, contact City Hall at 920-867-2630 for availability.

HOME POOL SAFETY

As the summer approaches, the City of Weyauwega would like to take the opportunity to remind residents that if you choose to put up any type of pool the liability lies with the property owner. It is important to cover the pool, remove ladders, and protect the area to prevent accidents. Certain pools do require a permit; therefore, please contact City Hall at (920) 867-2630 before installing or erecting any pools.

DOG & CAT LICENSING

2025 Dog and Cat Licenses are available at City Hall, 109 E. Main Street. **Animal licenses expire each year on December 31st and must be renewed by April 1st to avoid a late fee.**

- Spayed Female and Neutered Male \$5.00
- Unspayed Female and Unneutered Male \$10.00

Deadline: A late fee of \$5.00 will be charged if the owner of a dog 5 (five) months of age or over fails to obtain a license prior to April 1st of each year or within 30 days of acquiring ownership of a licensable animal.

Proof of rabies vaccine is required before a license will be issued.

*Dog & Cat License Ordinance
(Municipal Code Sec.190)*

GRASS CLIPPINGS AND STORM DRAIN MANAGEMENT

Did you know grass clippings and leaf litter are pollutants? Yard debris, leaves, shrub trimmings, grass clippings, and other tree materials cause significant source of storm water pollution. When lawn waste is blown into the street, it can clog storm drains and cause drainage and flooding issues.

Storm drains are not connected to the treatment plant! There is no way to remove the waste from the water before getting to the streams, rivers and lakes. As the waste breaks down in our local waterways, it adds excess nutrients like nitrogen and phosphorus to the water. This is how the growth of algae and weeds grow.

Suggested mowing practices include leaving the grass clippings in the lawn or compost them. Direct grass clippings away from streets, driveways, sidewalks and other paved areas. Make sure to sweep or blow clippings off paved surfaces and back into the lawn!

MEDICATION DROP-BOX LOCATION

Weyauwega City Hall • 109 E. Main Street • Lobby Hours from 8:00 am to 4:00 pm (Mon-Fri)

WHAT TO DROP

- Expired/Unwanted Prescription Meds
- Over-the-Counter Medications
- Medication Samples
- Pet Medications
- Liquid Medications
- Medicated Ointments and Creams
- Inhalers
- Vitamin Supplements

WHAT NOT TO DROP

- Needles/Lancets/Syringes
- Thermometers
- IV Bags
- Nebulizer Machines
- Diabetes Test Kits
- Oxygen Tanks
- Personal Care Products (shampoo, lotion, tec.)

NEW GUIDELINES: Empty pills into a plastic sealable bag. Keep liquids, creams, powders in original containers. Place liquid medication bottles in a plastic bag. Recycle empty pill bottles and paper boxes at home.

If you have any questions, contact the Waupaca County Solid Waste Department at 715-258-6240.

KEEP YOUR GRASS CUT

The Common Council finds that lawns, grasses, and noxious weeds on non-agricultural lots or parcels of land, as classified under the City Zoning Code, within the City of Weyauwega **which exceed eight (8) inches in length** adversely affect the public health and safety of the public in that they tend to emit pollen and other discomforting bits of plants, constitute a fire hazard, and a safety hazard in that debris can be hidden in the grass, interferes with the public convenience, and adversely affects property values of other land within the City.

For that reason, any non-agricultural lawn, grass, or weed on a lot or other parcel of land **which exceeds eight (8) inches in length** is hereby declared to be a public nuisance.

The City of Weyauwega may issue written notice to require the cutting of grasses/weeds exceeding eight (8) inches in length. In the event that the issue is not resolved within the timeline identified in writing, the City reserves the right to authorize/contract for the grasses or weeds to be cut, with applicable costs and expenses to be billed to the property owner.

NUISANCE/JUNK ORDINANCE

Weyauwega residents, with the spring time upon us, the Weyauwega Police Department reminds you to do an inspection of your yard, property or properties. City Council in conjunction with the Weyauwega Police Department encourages City Residents to comply with the ordinances that help to keep our great community looking orderly and respectful. The City of Weyauwega discourages against the collection of junk and unsightly materials within the community. Weyauwega City Ordinance 283-8 prohibits unhealthy, hazardous or unsightly materials on public or private property. City Ordinance 454-26 prohibits inoperable, wrecked or discarded vehicles. City Ordinance 378-1 explains parameters of outside storage on private property. All of these ordinances are accessible online at <http://ecode360.com/WE2856> or available at City Hall for your review of the definition. Should you have any question with regards to the interpretation of the ordinance or if your property complies, appointments can be made and an officer will assist you with your

inspection(s). The Weyauwega Police Department continually evaluates properties for compliance throughout the year. Identified compliance violations will be contacted and handled on a case by case basis. Fines for non-compliance can range from \$100.00 – \$500.00.

Waupaca County Processing & Transfer Facility located at E4981 Swan Road in Manawa, 715-258-6249, can take most items with a small fee.

The City Council and Weyauwega Police Department encourages your partnership in helping keep Weyauwega a clean, safe place to live!

Reminders to Property Owners with Pets – Please Respect your Neighbors

The nice weather brings out citizens as well as their pets. Please respect everyone in the community by making sure you clean up after your pets. Keep the outdoors enjoyable for everyone!

Chapter 190-6 of the Code of Ordinances for the City of Weyauwega states:

1. No person having in his/her possession or ownership any dog or other domestic animal shall allow the animal to run at large within the City. The owner of animal, whether licensed or unlicensed, shall keep his/her animal tied or enclosed in a proper enclosure so as not to allow said animal to interfere with the passing public or neighbors. Any animal running at large unlicensed and required by state law or City ordinance to be licensed shall be seized and impounded by a humane or law enforcement officer or animal warden.

Chapter 190-10 of the Code of Ordinances for the City of Weyauwega states:

1. **Removal of Fecal Matter.** The owner or person in charge of any dog, cat, horse, or other animal shall not permit solid fecal matter of such animal to deposit on any street, sidewalk, alley or other public or private property, unless such matter is immediately removed therefrom by said owner or person in charge. This Section shall not apply to a person who is visually or physically handicapped.
2. **Accumulation of Fecal Matter Prohibited on Private Yards.** The owner or person in charge of the dog or cat must also prevent accumulation of animal waste on his/her own property by regularly patrolling and properly disposing of the fecal matter.

2025 'COLOR OUR WORLD' SLP @ WEYAUWEGA PUBLIC LIBRARY

301 S. Mill Street, Weyauwega

The 2025 Summer Library Program begins on Mon, June 9 and ends on Sat, Aug 2. Anyone up to age 18 may sign up. Work on filling up your Bingo card to earn tickets for prizes! Watch for more info! Don't miss out on the fun!

Tues, June 10, 3:00pm:

J & R AQUATIC ANIMAL RESCUE

This vibrant, hour-long presentation explores the fascinating ways animals use color to survive & thrive, focusing on camouflage, warning colors, and mimicry. Featuring live animals - including snakes, lizards, insects, spiders, hedgehogs, birds, and more - our program includes an interactive Q&A session and, time permitting, the chance for attendees to meet the animals up close.

2025 DAILY PROGRAMS

MONDAYS

Movie 2:00pm (Watch for weekly posters for movie choices)

WEDNESDAYS

Construction Zone 2:00-4:00pm (Legos, Duplos, Magnatiles, Blocks, etc)

FRIDAYS

Play & Learn - fun activities all day (come when you can) (SLP theme-related activities for all ages)

LIBRARY HOURS

Monday - Thursday 9:30-6:00pm

Friday 9:30-5:00pm

Saturday 9:30-Noon

Have you checked out the Weyauwega Dog Park yet?

The dog park is located in Peterson Park near the kayak launch on Old Mill Street.

Weyauwega Dog Park Rules

1. NO dogs known to be aggressive towards other dogs or people (or exhibiting any threatening behavior) may enter the park. Owners are responsible and liable for the action and behavior of their dogs at ALL times.
2. Dogs (including puppies) must be properly inoculated, be healthy (have no contagious conditions or diseases) and be parasite-free (both internally and externally).
3. Owners must clean up after their dogs.
4. No female dogs in heat may enter the park at any time.
5. Owners must closely supervise their dogs, and at no time shall an owner leave the park without their dog(s).
6. Parents are strongly discouraged from bringing children under 12 years of age into the park. Children shall, at no time, be allowed to run with or chase after dogs in the park.
7. Do not bring toys, rawhide chews, dog treats, or food of any kind into the dog park, as dog fights may result.
8. For safety purposes, remove choke, pinch (prong) and spike collars from your dog prior to entering the park. A basic flat buckle collar (with city/county license, rabies and identification tags) is required.
9. No glass, litter, or motorized equipment/toys will be allowed in the park.
10. "Off leash" does NOT mean "out of control". Dog owners are responsible and liable for the actions and behaviors of their dogs at all times.
11. Dogs must be accompanied by an adult at all times.
12. Owners must have a leash for each dog. Dogs must be on a leash until inside the exercise area.
13. No more than three dogs per person.
14. Owners must clean up after their dogs. Park will be closed if owners fail to clean up after their dogs.

THE WEYAUWEGA SWIM LAKE

The Weyauwega Swim Lake located in the Maasch Community Park will open for the 2025 season on Thursday, June 5, 2025. Open swim hours are Monday thru Thursday, 12:30 pm - 6:00 pm, Friday 12:30 pm – 7:00 pm and Saturday/Sunday from 11:00 am – 7:00 pm.

Swimming lessons are offered in the mornings Monday thru Friday for a half hour starting at either 11:00 am or 11:30 am. Evening swim lessons are held twice a week, either Monday/Wednesday or Tuesday/Thursday from 6:15 pm – 7:00 pm.

The first session of morning swimming lessons will be offered thru the Weyauwega-Fremont School District Summer School Program. Please contact the School District to sign up for morning lessons only from June 9-June 27. Times will vary.

Registration for all other lesson times and sessions will be done at the swim lake office before the start of each session.

**Session I Lessons
Session II Lessons
Session III Lessons**

**Monday-Friday, June 9 to June 27
Monday-Friday, July 07 to July 25
Monday-Friday, July 28 to August 15**

- Level One-Introduction to Water Skills
- Level Two-Fundamental Aquatic Skills
- Level Three-Stroke Development
- Level Four-Stroke Improvement
- Level Five-Stroke Refinement
- Level Six - Advance

The cost for lessons is \$15 per person for city residents and \$25 for non-city residents who have purchased a season pass, or \$25 for city residents and \$40 for non-city residents without a season pass.

Please Note: Each level has a maximum of 8 students per lesson time so please try to have a second choice in mind when registering in case the time you want is full. Additional classes may be opened if the need arises.

PRIVATE LESSONS - \$15.00 PER HOUR SCHEDULE WITH INSTRUCTOR FOR ANY TIME

Season Passes and Day Passes

Season passes will be available at the swim lake during open swim hours.

The fees are as follows:

Family plus one*	\$55 city resident, \$65 non-city resident
Adult (18 & older)	\$35 city resident, \$40 non-city resident
Child	\$30 city resident, \$35 non-city resident

Day Passes are:	<u>City Resident</u>	<u>Non-City Resident</u>
Senior Citizen	\$3	\$4
Adult	\$4	\$5
Child	\$3	\$4

*Family pass plus one includes immediate family under 18 living in the same household and one other person such as a babysitter, grandparent, etc. * If you have any questions about dates, requirements, or anything else you may call the Swim Lake at (920) 867-2555 starting June 5th or City Hall at (920) 867-2630.

Weyauwega Area Chamber of Commerce 2025 Events

June 12, 2025 - 4 p.m. to 7 p.m. Thursday Night on Main

August 1, 2025 - Car Show on Main

September 11, 2025 - Soups on Main

September 13, 2025 - Fall Rummage O Raman

December 6, 2025 - Winter Wonderland

Watch for more details on The Weyauwega Area Chamber of Commerce Facebook page or email them at weyauwegachamberinfo@gmail.com.

Why Join the Weyauwega Chamber?

Connecting businesses, supporting growth, and strengthening community ties in the heart of Weyauwega.

Whether you're a local entrepreneur, established business, or passionate community member, we're here to help you thrive. Join us in creating a vibrant future for our town through networking events, business resources, and community initiatives.

- Build valuable business connections
- Stay informed on local opportunities
- Make a meaningful impact in our community.

Things we are working on for 2025 include a new website that will allow the public to search for information about Weyauwega and showcase a list of the businesses and what they have to offer during their visit. We are working with our local City Administration, School and other organizations to help assist with making some necessary changes to our downtown including a new PA system for Main Street, attracting new businesses, and showcasing the great things Weyauwega has to offer like Maasch Park, kayaking, great restaurants and our world-famous cheese.

We can always use volunteers at many of the events that are hosted by the City of Weyauwega, Weyauwega Area Chamber of Commerce and other great organizations.

"We serve for the outcome not the income."

"FLUSHABLE" WIPES ARE NOT FLUSHABLE!

Did you know that baby wipes may specify they are flushable, but they should not be put in our wastewater system? This also includes adult wipes, cleaning wipes (Clorox, Lysol), medical wipes, etc. In fact, the only paper product that should be "flushed" is toilet paper. It is the only paper designed to break down as it travels through the wastewater treatment process.

No Wipes Down the Pipes

Even if a product says it is "flushable" ...

Unless it is toilet paper, it should not be flushed!

- Diapers (including cloth, cotton, disposable, or plastic)
- Flushable, disposable, cleaning, or baby wipes
- Paper towels, cloth towels, or any type of rag
- Feminine hygiene products
- Facial Tissues

Place the items listed above in a trash can

Putting these items down toilets may plug sewers and cause raw sewage to back up into YOUR HOME

City of Weyauwega Yard Waste Site

The City of Weyauwega is able to offer a yard waste site to **City** residents under Wisconsin Department of Natural Resources License # 4285. City residents need to purchase a tag for \$1.00 at city hall to be on display in their vehicle when entering and exiting the yard waste site on Slough Road. If your schedule doesn't allow you the ability to arrive at city hall during regular business hours of 8:00am-3:00pm, Monday-Friday you can place \$1.00 in an envelope with your name, address and telephone number and place in one of the utility drop boxes and we will gladly mail you your tag. The entire yard waste site premises is under surveillance and violators will be prosecuted pursuant to city ordinance 412-25. The yard waste site accepts: grass clippings, leaves, garden waste and brush. Please follow signage for proper location within the site. The yard waste site **does not** accept: logs, trash, construction/remodeling debris, pavement of any type, stones, etc. Furthermore, the city yard waste site is not usable for lawn care services, professional tree services and non-residents. Your cooperation and vigilance is greatly appreciated to keep this service open and available.

How to Protect Yourself from the Costs to Remedy Sewer Back-Ups in Your Home

The City has determined that there may be certain areas within the City of Weyauwega that are prone or more susceptible to sanitary sewer backups. In some cases there may be problems with the City's infrastructure, and in other cases, there are things that cannot be prevented from the City's perspective.

When such a sewer backup does occur that is **not** of the negligence of the City of Weyauwega, the City's insurance carrier does not cover the cost associated with restoration, rehabilitation and clean-up of such incidents, accidents or occurrences. The costs to clean and restore your property after a sewer backup situation are usually placed on the homeowner, when the City is determined not to be negligible by law. With that, it behooves City residents to have one, or both, of the following protections in place:

1. Acquisition and possession of homeowners insurance that includes coverage for sanitary sewer backup situations.
2. A backflow preventer, which prevents sanitary sewer material from back-flowing out of the main lines and into your home.

These are two ways in which citizens may be able to limit their liability and provide funds for cleanup and restoration, should such a situation develop. The City hereby urges you to check into both of these options as it relates to providing assurances that you have protected your home and property.

The City of Weyauwega strives to minimize these situations from occurring and conducts routine regular maintenance of our lines and sanitary sewer infrastructure. However, there are times when excessively heavy precipitation or infrastructure obstructions occur that cause such backups.

If you have any questions on this matter, please feel free to contact City Hall at (920) 867-2630.

We hope that you find this information useful and that it provides you with the information necessary to make the right decisions for your property and possessions.

When a potential sewer backup situation is occurring at your home, it is absolutely important that your first call is to the City of Weyauwega, and not a private plumber or contractor. The City may be able to remedy the situation independently, where a private contractor may charge you for their services.

WEYAUWEGA AREA HISTORICAL SOCIETY

Organized-2006

Excitement continues in Weyauwega, and WAHS is pleased to share in it! Please note the following events that you'll be seeing involvement in from our organization. If you happen to miss something, just take a look at Facebook: <https://www.facebook.com/weyauwegaareahistoricalsociety>. For questions or More information, call 920-538-2025 or Email: marybaehman@hotmail.com.

Thanks to all who helped achieve the funds necessary to repaint the historical mural on the silo by the Wolf River Art League of New London. Credit is given to the contributors as noted on the banner by the silo. We hope you enjoy watching the progress as the WRAL works to get it done. Plans are to rededicate the mural after the fun walk/run on Saturday, October 11.

Saturday, June 7, from 1-4 p.m. The Little Red School House Museum will be open for the summer. Note: It will be open **Saturdays**, instead of Sundays, this summer to hopefully accommodate more people.

Look for the red Wega Wagon around this summer! As we continue to raise funds for digitization of our local paper (so everyone will be able to look up old files), we hope you find a special treat that will be available for sale.

Some events to look for:

July 3 – Waupaca County Fairgrounds Fireworks

August 1 - Weyauwega Car Show. Treats will be available to purchase instead of serving up a spaghetti dinner this year.

Saturday, October 11 - "64th annual Horse & Buggy Days-and Beyond"; Cheese-a-Wega. Pick up the most recent "PasTimes" newsletter at City Hall for a glimpse of what this year's event will look like. Many awards will be given for – parade, cheese contests, mustache/beard contests, and more. The WAHS Pie & Ice Cream Social will again be available to tantalize your tastebuds! Thank you to everyone who contributes to keep this event going! For continuing updates, see: <https://www.facebook.com/events/691420533292707>.

WATER SYSTEM INFORMATION

If you would like to know more about the information contained in this report, please contact Michael Lee at (920) 707-4020.

OPPORTUNITY FOR INPUT ON DECISIONS AFFECTING YOUR WATER QUALITY

Public Works Committee Meetings are held as a Committee of the Whole on the 2nd Tuesday of the month at 6:30 pm. City Council meetings are held at City Hall on the 3rd Monday of the month at 6:30 pm.

HEALTH INFORMATION

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune systems disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbial contaminants are available from the Environmental Protection Agency's safe drinking water hotline (800-426-4791).

SOURCE(S) OF WATER

Source ID	Source	Depth (in feet)	Status
1	Groundwater	86	Active
3	Groundwater	90	Active
4	Groundwater	172	Active

To obtain a summary of the source water assessment please contact, Michael Lee at (920) 707-4020.

EDUCATIONAL INFORMATION

The sources of drinking water, both tap water and bottled water, include rivers, lakes, streams, ponds, reservoirs, springs and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or from human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally- occurring or result from urban stormwater runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban stormwater runoff and residential uses.

- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban stormwater runoff and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations that limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which shall provide the same protection for public health.

DEFINITIONS

Term	Definition
AL	Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.
HA and HAL	HA: Health Advisory. An estimate of acceptable drinking water levels for a chemical substance based on health effects information. HAL: Health Advisory Level is a concentration of a contaminant which, if exceeded, poses a health risk and may require a system to post a public notice. Health Advisories are determined by US EPA.
HI	HI: Hazard Index: A Hazard Index is used to assess the potential health impacts associated with mixtures of contaminants. Hazard Index guidance for a class of contaminants or mixture of contaminants may be determined by the US EPA or Wisconsin Department of Health Services. If a Health Index is exceeded a system may be required to post a public notice.
Level 1 Assessment	A Level 1 assessment is a study of the water system to identify potential problems and determine, if possible, why total coliform bacteria have been found in our water system.
Level 2 Assessment	A Level 2 assessment is a very detailed study of the water system to identify potential problems and determine, if possible, why an E. coli MCL violation has occurred or why total coliform bacteria have been found in our water system, or both, on multiple occasions.
MCL	Maximum Contaminant Level: The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal: The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.
MFL	million fibers per liter
MRDL	Maximum residual disinfectant level: The highest level of a disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum residual disinfectant level goal: The level of a drinking water disinfectant below which there is no known or expected risk to health. MRDLGs do not reflect the benefits of the use of disinfectants to control microbial contaminants.
mrem/year	millirems per year (a measure of radiation absorbed by the body)
NTU	Nephelometric Turbidity Units
pCi/l	picocuries per liter (a measure of radioactivity)
ppm	parts per million, or milligrams per liter (mg/l)
ppb	parts per billion, or micrograms per liter (ug/l)
ppt	parts per trillion, or nanograms per liter
ppq	parts per quadrillion, or picograms per liter

Term	Definition
PHGS	PHGS: Public Health Groundwater Standards are found in NR 140 Groundwater Quality. The concentration of a contaminant which, if exceeded, poses a health risk and may require a system to post a public notice.
RPHGS	RPHGS: Recommended Public Health Groundwater Standards: Groundwater standards proposed by the Wisconsin Department of Health Services. The concentration of a contaminant which, if exceeded, poses a health risk and may require a system to post a public notice.
SMCL	Secondary drinking water standards or Secondary Maximum Contaminant Levels for contaminants that affect taste, odor, or appearance of the drinking water. The SMCLs do not represent health standards.
TCR	Total Coliform Rule
TT	Treatment Technique: A required process intended to reduce the level of a contaminant in drinking water.

DETECTED CONTAMINANTS

Your water was tested for many contaminants last year. We are allowed to monitor for some contaminants less frequently than once a year. The following tables list only those contaminants which were detected in your water. If a contaminant was detected last year, it will appear in the following tables without a sample date. If the contaminant was not monitored last year, but was detected within the last 5 years, it will appear in the tables below along with the sample date.

DISINFECTION BYPRODUCTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2023)	Violation	Typical Source of Contaminant
HAA5 (ppb)	C	60	60	3	3		No	By-product of drinking water chlorination
TTHM (ppb)	C	80	0	16.1	16.1		No	By-product of drinking water chlorination

INORGANIC CONTAMINANTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2024)	Violation	Typical Source of Contaminant
BARIUM (ppm)		2	2	0.030	0.024 - 0.030	9/20/2023	No	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits
FLOURIDE (ppm)		4	4	0.7	0.3 - 0.7	9/20/2023	No	Erosion of natural deposits; Water additive which promotes strong teeth; Discharge from fertilizer and aluminum factories
NITRATE (NO3-N) (ppm)		10	10	3.59	1.88 - 3.59		No	Runoff from fertilizer use; Leaching from septic tanks, sewage; Erosion of natural deposits
SODIUM (ppm)		n/a	n/a	17.20	10.30 - 17.20	9/20/2023	No	n/a

Contaminant (units)	Action Level	MCLG	90th Percentile Level Found	# of Results	Sample Date (if prior to 2024)	Violation	Typical Source of Contaminant
COPPER (ppm)	AL=1.3	1.3	0.0792	0 of 10 results were above the action level.	9/5/2023	No	Corrosion of household plumbing systems; Erosion of natural deposits; Leaching from wood preservatives
LEAD (ppb)	AL=15	0	6.00	0 of 10 results were above the action level.	9/5/2023	No	Corrosion of household plumbing systems; Erosion of natural deposits

RADIOACTIVE CONTAMINANTS

Contaminant (units)	Site	MCL	MCLG	Level Found	Range	Sample Date (if prior to 2024)	Violation	Typical Source of Contaminant
GROSS ALPHA, EXCL. R & U (pCi/l)		15	0	2.9	1.7 - 2.9	7/15/2020	No	Erosion of natural deposits
RADIUM, (226 + 228) (pCi/l)		5	0	1.4	0.8 - 1.4	7/15/2020	No	Erosion of natural deposits
GROSS ALPHA, INCL. R & U (n/a)		n/a	n/a	4.6	2.4 - 4.6	7/15/2020	No	Erosion of natural deposits
COMBINED URANIUM (ug/l)		30	0	2.5	0.8 - 2.5	7/15/2020	No	Erosion of natural deposits

UNREGULATED CONTAMINANTS

Unregulated contaminants are those for which EPA has not established drinking water standards. The purpose of unregulated contaminant monitoring is to assist EPA in determining the occurrence of unregulated contaminants in drinking water and whether future regulation is warranted. EPA required us to participate in this monitoring.

Contaminant (units)	Level Found	Range	Sample Date (if prior to 2018)
CHLOROMETHANE (METHYLCHLORIDE) (ppb)	2.05	0.00 - 2.05	9/20/2023

ADDITIONAL HEALTH INFORMATION

Lead can cause serious health effects in people of all ages, especially pregnant people, infants (both formula-fed and breastfed), and young children. Lead in drinking water is primarily from materials and parts used in service lines and in home plumbing. Weyauwega Waterworks is responsible for providing high quality drinking water and removing lead pipes but cannot control the variety of materials used in the plumbing in your home. Because lead levels may vary over time, lead exposure is possible even when your tap sampling results do not detect lead at one point in time. You can help protect yourself and your family by identifying and removing lead materials within your home plumbing and taking steps to reduce your family's risk. Using a filter, certified by an American National Standards Institute accredited certifier to reduce lead, is effective in reducing lead exposures. Follow the instructions provided with the filter to ensure the filter is used properly. Use only cold water for drinking, cooking, and making baby formula. Boiling water does not remove lead from water. Before using tap water for drinking, cooking, or making baby formula, flush your pipes for several minutes. You can do this by running your tap, taking a shower, doing laundry or a load of dishes. If you have a lead service line or galvanized requiring replacement service line, you may need to flush your pipes for a longer period. If you are concerned about lead in your water and wish to have your water tested, contact Weyauwega Waterworks (Michael Lee at (920) 707-4020). Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available at <https://www.epa.gov/safewater/lead>.

ADDITIONAL INFORMATION ON SERVICE LINE MATERIALS

We are required to develop an initial inventory of service lines connected to our distribution system by October 16, 2024 and to make the inventory publicly accessible. You can access the service line inventory here/ by: cityofweyauwega-wi.gov

From the Firehouse.....

Thank you for the opportunity to share an update in this year's City Newsletter. We are proud to reflect on a year of service, growth, and continued support from our incredible community.

2024 Fundraising Recap

Due to state regulations, we are only able to hold two annual fundraisers; this year we hosted:

- **Chicken BBQ and Raffle**
- **Street Dance**

– After careful review, the dance has been discontinued due to limited proceeds raised.

Looking ahead to 2025, we're excited to launch a **NEW RAFFLE** with a **COMPACT TRACTOR** grand prize as well as firearms and cash prizes. With a total value of prizes of **\$29,000!** Only 500 tickets will be sold for \$100 each and can be purchased from any firefighter; you may arrange a purchase by email, Facebook message, or call the station and leave a message (920) 867-2119.

We've applied for **over \$608,000 in grants** in the past year. Know of grant opportunities? Please let us know.

Donations of any size are always welcome and appreciated!

Community Engagement

- **Firefighter Experience Day** (March 22): Hosted 9 local youth and 2 recruits for hands-on training and challenges.
- **School & Group Visits:** We provided gear demos, hose practice, and fire safety education to Cahoots Adult Day Service, local 4K, kindergarten, and homeschool students.
- **Holiday Light Show & "Extinguish Hunger" Drive:** Led by veteran Dewey Stelzner, raised **\$2,476.38** and collected **5,812 lbs** of food for local pantries; thank you to all who supported!

Recognizing Service & Welcoming New Members

- **30 Years:** FF Paul Buchholz
- **20 Years:** 1st Lt. Brian Williams, 2nd Capt. Mike Koch
- **Retirement:** Brandon Leschke (23 years)
- **Business of the Year:** Culp Law Firm
- **New Firefighters:** Eli Boelter, Matthew Duchac, Adam Iverson, Mason Miller & Hannah Lindemann

Looking Ahead

We continue to work toward NFPA (Natl. Fire Protection Association) standards for length of service for apparatus (25 years), turnout gear (10 years), and SCBA cylinders (15 years). Plans to remodel our 42-year-old station have been put on hold; updates are still an urgent need as we learn more about firefighter cancer risks in firehouses, even for volunteer departments.

Follow us on Facebook for department updates, alerts, and community info.

To the Weyauwega community; thank you for your continued generosity. It is our honor to serve you.

Stay Safe!

Adam Spierings

Assistant Chief | aspierings@wegafire.org

WATER CONSERVATION ORDINANCE

In an effort to protect the structural integrity of the City's water distribution system without significant and unnecessary added costs, and to promote responsible outdoor watering, the Common Council of the City of Weyauwega approved an ordinance to preserve, conserve and limit water use for lawns, grass, outside plants, trees, shrubs and similar plants.

This ordinance was approved by the City Council in 2013 and closely resembles water conservation ordinances adopted by the City of Waupaca, and other municipalities.

There shall be absolutely NO watering by unattended sprinkler systems between 11:00 a.m. and 6:00 p.m. Even-numbered addresses shall only be allowed to water before 11:00 a.m. and after 6:00 p.m. on even-numbered days. Odd-numbered addresses shall only be allowed to water before 11:00 a.m. and after 6:00 p.m. on odd-numbered days.

Use of handheld sprayers/hoses for watering is allowed at any time on any day. Newly seeded and newly sod lawns may be watered by sprinkler every day with a permit issued by the city but only before 11:00 a.m. and after 6:00 p.m.

Violations of this ordinance will be penalized. First offense will be issued a written warning. Second offense will be fined \$10 - \$25. Third and subsequent offenses will be fined \$25 - \$100.

For more specific information, or to discuss this ordinance, please contact City Hall at (920) 867-2630.

HOUSE NUMBERS

The City of Weyauwega wants to remind all residents that to ensure public safety and well being it is essential to have house numbers visible for Police, EMS, Fire and all safety personnel. The City of Weyauwega code §419-16 requires the following: The numbers shall be conspicuously placed immediately above, on or at the side of the proper door of each building so that they can be plainly seen from the street. Whenever any building is more than 50 feet from the street line, the number of the building shall be conspicuously displayed at the street line, near the walk, driveway or common entrance to such building, and upon a gatepost, fence, tree, post or other appropriate place so as to be easily discernible from the sidewalk. The numbers shall be not less than 2½ inches in height, with dark lettering against a light background. Script numbers may not be used as the primary address numbers. Periodically the City Administrator and/or Police, Fire or EMS personnel will regularly check for compliance.

STREET LIGHTS

If you notice a street light out in the City please contact City Hall at 920-867-2630 and notify us of the location of the light pole. If it is possible to get the pole number off of the pole that would be greatly appreciated as well. The City will then contact WE Energies and relay the information to them for the repair.

ATV/UTV REMINDERS

As ATV and UTV use becomes more and more popular, the Weyauwega Police Department would like to remind you to ride with caution. Remember the following: (1) Headlamps and taillights must be turned on at all times. (2) Youth under 16 are required to have safety certificates and be accompanied by a parent or guardian within instructional distance while operating on the roadway. (3) All persons under 18 operating and or riding on an ATV/UTV must wear a helmet. (4) Be sure to check that your ATV is a two seated machine; if it is not indicated as such you cannot have a passenger. (5) All ATV/UTV's operated on the roadway must be registered and properly display registration. Rear registration must display as 7.5" long and 4" high White plate with Black lettering.

(6) Follow all posted speed limit signs unless indicated otherwise specific to ATV/UTV.

City of Weyauwega

City Hall
